MATERIAIS | MATERIALS | MATERIALES

1. TIPOS DE MADEIRA

Jatobá. Madeira de alta densidade, cor marrom avermelhada. Indicada para móveis de jardim, pela resistência às intempéries. Acabamento polido natural, verniz ou Eco Blindage.

Tauari. Madeira de densidade leve a média, cor branca amarelada. Não é recomendada para uso em áreas desprotegidas. É utilizada em alguns modelos da linha Fold e Beer, com acabamento envernizado.

2. AÇO INOXIDÁVEL

Os móveis Terrazzo Inox utilizam aço de qualidade tipo 304, melhor conhecido como aço inoxidável 18/10 - liga de aço 18% cromo e 10% níquel, extremamente resistente à corrosão e grande longa durabilidade.

3. TELA BATYLINE

Tela 100% poliéster de origem francesa que apresenta excelente resistência aos raios ultravioleta e à ruptura, e vem com proteção anti-mofo. Fácil de limpar, secagem rápida.

4. FIBRA SINTÉTICA

Material resistente à intempéries, garantindo aos móveis Terrazzo Fibra, durabilidade em ambientes externo [outdoor].

1. TYPES OF WOOD

Jatobá. A high density wood with a reddish color. Recommended for garden furniture, due to its resistance to the elements. Natural polished, varnish or Eco Blindage finish.

Tauari. Light and medium density wood, with a yellowish-white color. Not recommended for use in unsheltered areas. It is used in some models of the Plié and Beer lines, with varnished finish.

2. STAINLESS STEEL

Terrazzo Inox furniture employ 304-type quality steel, more commonly known as 18/10 stainless steel - an steel alloy with 18% chrome and 10% nickel, extremely resistant to corrosion and offering lasting durability.

3. BATYLINE CANVAS

A 100% polyester canvas of French origin presenting excellent resistance to ultraviolet rays and breakage, also including anti-mold protection. Easy to clean and fast drying.

4. SYNTHETIC FIBER

Material resistant to the elements, which ensures durability to Terrazzo Fibra furniture in outdoor settings.

1. TIPOS DE MADEIRA

Jatoba. Madera de elevada densidad, color marrón rojizo. Indicada para muebles de jardín por su resistencia a las intemperies. Terminación pulida natural, barniz o Ecoblindado.

Tauari. Madera con densidad de liviana a mediana, color blanco amarillento. No se recomienda para su uso en áreas sin protección. Se la utiliza en algunos modelos de la línea Plié y Beer, con terminación con barniz.

2. ACERO INOXIDABLE

Los muebles Terrazzo Inox utilizan acero de calidad, tipo 304, más conocido por acero inoxidable 18/10 - aleación de acero 18% cromo y 10% níquel, extremadamente resistente a la corrosión y gran durabilidad.

3. TELA BATYLINE

Tela 100% poliéster de origen francés, con excelente resistencia a los rayos ultravioleta y a la ruptura, viene con protección antimoho. Fácil de limpiar, secado rápido.

4. FIBRA SINTÉTICA

Material resistente a las intemperies, le garantiza a los muebles Terrazzo Fibra la durabilidad en ambientes externos [outdoor].

ACABAMENTOS | FINISHES | ACABADOS

Madeira sem tratamento.
Untreated wood.
Madera sin tratamiento.

Madeira com Eco Blindage.
Wood with Eco Blindage.
Madera con Eco Blindado.

Madeira com Verniz.
Wood with Varnish.
Madera con Barniz.

1. ACABAMENTO NATURAL

Ideal quando se quer valorizar a madeira sem acabamentos, priorizando o envelhecimento natural da mesma; este tipo de acabamento enobrece o ambiente.

Recomenda-se o uso em locais de menor agressividade. Quando submetido a fortes intempéries, com a madeira menos protegida, o móvel requer manutenção mais freqüente; neste caso, recomenda-se utilizar algum tipo de protetor de madeira, como óleo vegetal ou Eco Blindage. Porém, nestes tipos de ambiente, o móvel pode apresentar rachaduras, ressecamento e mudança de cor.

2. ACABAMENTO ECO BLINDAGE

Impregnante para madeira, com ação inseticida e fungicida, repelente à água e com filtro solar. Com elevada elasticidade, o produto agrega durabilidade e proteção ao móvel penetrando na madeira e realçando os veios - sem formar filme. Ecologicamente correto por excluir conteúdos nocivos a saúde, utiliza produtos a base d'água.

Ideal para ambientes com forte agressividade e baixa umidade do ar. Com o passar do tempo será necessário reaplicar o produto.

3. ACABAMENTO VERNIZ

O verniz é um protetor de madeira que realça sua tonalidade, concedendo brilho e um toque mais liso ao produto.

É recomendado para ambientes protegidos, pois o verniz forma um filme apenas na superfície da madeira. Quando os móveis são utilizados em ambientes expostos a sol e chuva, os mesmos podem apresentar ressecamento e manchas no verniz.

1. NATURAL FINISH

Ideal when you are looking for an unfinished look, where the natural aging of the wood is most important; this type of finish ennobles the environment.

Recommended for use in less aggressive environments. When exposed to severe weather, and the wood is less protected, the furniture requires more frequent maintenance. In this case, we recommend using some kind of wood protector, such as vegetable oil or Eco Blindage. However, in such environments, the furniture may show cracking, dryness and change its color.

2. ECO BLINDAGE FINISH

Wood impregnant; insecticide and fungicide action; water repellent. Contains sunscreen. The product is highly elastic, adding durability and protection to furniture by penetrating wood and bringing out its grain without creating a film. Ecologically correct owing to the absence of toxic contents. Made of water-based products.

Perfect for areas of high air aggressiveness and low humidity. It may be necessary to reapply the product after some time has elapsed.

Warranty 3 years.

Terrazzo FITT

Terrazzo FITT é uma coleção de produtos desenhada para quem gosta de ambientar e docorar com um estilo contemporâneo e despojado. Os móveis têm linhas retas, são visualmente leves, práticos, de fácil manuseio e especialmente confortáveis.
Uma completa coleção para terraços, varandas e jardins.
As peças são produzidas em madeira maciça Jatobá.
Acabamentos natural ou acabamento Eco Blindage.
Design: Edi & Paolo Ciani.

Terrazzo FITT is a collection of products designed for those who like to decorate and create settings with a contemporary and laidback style.
The furniture pieces have straight lines, are visually light, practical, easy to handle and especially comfortable.
A complete collection for terraces, verandas and gardens.
The pieces are produced in solid Jatobá [Brazilian Cherry] timber.
Two finishes are available, natural wood and the Eco Blindage finish.
Design: Edi & Paolo Ciani.

Terrazzo FITT es una colección de productos diseñada para quien le gusta ambientar y decorar con un estilo contemporáneo y simple.
Los muebles presentan líneas rectas, son visualmente livianos, de fácil manipulación y especialmente cómodos.
Una colección completa para terrazas, balcones y jardines.
Las piezas son fabricadas en madera maciza Jatoba.
Con dos terminaciones: madera natural o terminación Eco Blindage.
Diseño: Edi & Paolo Ciani.
